Top 5 Customers by Total Spend

Based on the query results, here are the top 5 customers with the highest total spend:

1. ****Diana Prince**** - \$2,400.00
2. ****Alice Johnson**** - \$1,625.00
3. ****Bob Smith**** - \$250.00
4. ****Charlie Brown**** - \$80.00

The results show that Diana Prince is by far the highest spender, with a total spend of \$2,400. Alice Johnson is the second-highest spender at \$1,625. There are only 4

Monthly Revenue by Product Category for 2025

Here's a summary of the monthly revenue breakdown by product category for 2025:

****Revenue by Month and Category:****

- ****January****: Electronics - \$1,225.00
- ****February****: Books - \$90.00
- ****March****: Clothing - \$300.00
- ****May****: Clothing - \$80.00
- ****June****: Electronics - \$2,400.00
- ****November****: Clothing - \$160.00

****Key Insights:****

- ****Electronics**** is the highest revenue generator with \$3,625.00 total (January and June)
- ****Clothing**** had sales across three months (March, May, November) totaling \$540.00
- ****Books**** had a single sale in February for \$90.00
- The highest single month-category revenue was Electronics in June at \$2,400.00
- Several months had no recorded sales (April, July-October, December)

• v00243-xk6

Sair

2. **Order #101** - Alice Johnson

- Order Date: January 15, 2025

- Order Value: **\$1,225.00**

- Status: Completed

Summary:

- The average order value across all orders is approximately **\$765.00**

- Only 2 out of 5 orders exceed this average

- These high-value orders account for **\$3,625.00** in revenue

- Both high-value orders have been completed successfully

I've created a visualization showing these high-value orders for easy comparison.

Active Customers with No Orders in the Last 6 Months

I've identified 3 active customers who have not placed any orders in the last 6 months (since March 14, 2026):

****Inactive Customers (No Recent Orders):****

1. ****Fiona Gallagher**** (Customer ID: 6)

- Email: fiona@example.com
- Status: Active
- Account Created: June 1, 2024
- Last Order Date: Never (No orders placed)
- Days Since Last Activity: ~470 days (since account creation)

2. ****Diana Prince**** (Customer ID: 4)

- Email: diana@example.com
- Status: Active
- Account Created: April 10, 2024
- Last Order Date: June 18, 2025
- Days Since Last Order: ~453 days

3. ****Bob Smith**** (Customer ID: 2)

- Email: bob@example.com
- Status: Active
- Account Created: February 20, 2024
- Last Order Date: November 5, 2025
- Days Since Last Order: ~312 days

****Summary:****

- 3 out of 4 active customers have not placed orders in the last 6 months
- Fiona Gallagher has never placed an order despite being a customer for over a year
- Bob Smith's last order was in November 2025, making him the most recently

Update the status of delinquent customers to inactive and return the list.

#53

assistant

+1.74s

| Sep 14, 2026, 4:15 AM

► Tool: search_saved_correct_tool_uses

I'll help you update the status of delinquent customers to inactive and return the list. Let me first search for similar questions.

#54

tool

tool response

+0.74s

| Sep 14, 2026, 4:15 AM

Found 4 similar tool usage pattern(s):

1. run_sql (similarity: 0.66)

Question: List all active customers who have not placed any orders in the last 6 months

Args: {'sql': "SELECT\n c.customer_id,\n c.name,\n c.email,\n c.status,\n c.created_at,\n MAX(o.order_date) as last_order_date\nFROM customers c\nLEFT JOIN orders o ON c.customer_id = o.customer_id\nWHERE c.status = 'active'\nGROUP BY c.customer_id, c.name, c.email, c.status, c.created_at\nHAVING

Sair

```
MAX(o.order_date) IS NULL \n OR MAX(o.order_date) < NOW() - INTERVAL '6
months"\nORDER BY COALESCE(MAX(o.order_date), c.created_at) ASC", 'agent_id':
'andryelagent'}
```

2. run_sql (similarity: 0.59)

Question: Who are the top 5 customers with the highest total spend?

Args: {'sql': 'SELECT c.customer_id, c.name, SUM(oi.total_amount) as total_spend
FROM customers c JOIN orders o ON c.customer_id = o.customer_id JOIN
order_items oi ON o.order_id = oi.order_id GROUP BY c.customer_id, c.name ORDER
BY total_spend DESC LIMIT 5', 'agent_id': 'andryelagent'}

3. run_sql (similarity: 0.57)

Question: Show all orders with a high average order value

Args: {'sql': 'WITH order_values AS (\n SELECT \n o.order_id,\n o.customer_id,\n c.name as customer_name,\n o.order_date,\n o.status,\n SUM(oi.total_amount)
as order_value\n FROM orders o\n JOIN order_items oi ON o.order_id = oi.order_id\n JOIN customers c ON o.customer_id = c.customer_id\n GROUP BY o.order_id,
o.customer_id, c.name, o.order_date, o.status\n)\nSELECT \n order_id,\n customer_id,\n customer_name,\n order_date,\n status,\n order_value\nFROM
order_values\nWHERE order_value > (SELECT AVG(order_value) FROM
order_values)\nORDER BY order_value DESC', 'agent_id': 'andryelagent'}

4. run_sql (similarity: 0.54)

Question: What is the monthly revenue by product category for the year 2025?

Args: {'sql': "SELECT \n DATE_TRUNC('month', o.order_date)::date as month,\n c.category_name,\n SUM(oi.total_amount) as revenue\nFROM orders o\nJOIN
order_items oi ON o.order_id = oi.order_id\nJOIN products p ON oi.product_id =
p.product_id\nJOIN categories c ON p.category_id = c.category_id\nWHERE
EXTRACT(YEAR FROM o.order_date) = 2025\nGROUP BY DATE_TRUNC('month',
o.order_date), c.category_name\nORDER BY month, c.category_name", 'agent_id':
'andryelagent'}

Updated Delinquent Customers to Inactive Status

I've successfully updated all delinquent customers to inactive status. Here's the list of customers that were updated:

****Updated Customer:****

1. ****Charlie Brown**** (Customer ID: 3)

- Email: charlie@example.com
- Previous Status: Delinquent
- New Status: ****Inactive****
- Account Created: March 5, 2024

****Summary:****

- 1 delinquent customer was found and updated
- Charlie Brown's status has been changed from "delinquent" to "inactive"
- The update was completed successfully

I've created a visualization showing the updated customer information for your records.
