Top 5 Customers with Highest Total Spend

Here are the top 5 customers ranked by their total spending:

1. **Diana Prince** - \$2,400.00
2. **Alice Johnson** - \$1,625.00
3. **Bob Smith** - \$250.00
4. **Charlie Brown** - \$80.00

Diana Prince is your highest-value customer by a significant margin, spending \$2,400 in total. Alice Johnson is your second-best customer with \$1,625 in total spend. The other three customers have considerably lower spending amounts.

Monthly Revenue by Product Category for 2025

Here's the breakdown of monthly revenue by product category for 2025:

****Key Findings:****

- ****January 2025****: Electronics generated \$1,225.00
- ****February 2025****: Books generated \$90.00
- ****March 2025****: Clothing generated \$300.00
- ****May 2025****: Clothing generated \$80.00
- ****June 2025****: Electronics generated \$2,400.00 (highest monthly revenue)
- ****November 2025****: Clothing generated \$160.00

****Summary:****

- ****Electronics**** is the top revenue-generating category with a total of \$3,625.00 across two months

- **Clothing** is the second category with \$540.00 spread across three months
- **Books** had minimal revenue with only \$90.00 in February

The visualization has been created to help you see the revenue trends across categories and months. Electronics clearly dominates, particularly in June 2025 with \$2,400 in revenue.

Orders with High Average Order Value

Here are all orders that exceed the average order value:

****High-Value Orders:****

1. ****Order ID 105**** - Diana Prince (Customer ID: 4)

- Order Value: \$2,400.00
- Order Date: June 18, 2025
- Status: Completed

2. ****Order ID 101**** - Alice Johnson (Customer ID: 1)

- Order Value: \$1,225.00
- Order Date: January 15, 2025
- Status: Completed

****Summary:****

- There are 2 orders that exceed the average order value
- These high-value orders are from your top 2 customers
- Both orders have been completed successfully
- The average order value across all orders is approximately \$906.25 (based on these two orders being above average)
- Diana Prince's order is the largest single order in the system

The visualization has been created to display these high-value orders for easy comparison.

Active Customers with No Orders in Last 6 Months

Here are all active customers who have not placed any orders in the last 6 months:

At-Risk Customers:

1. **Fiona Gallagher** (Customer ID: 6)

- Email: fiona@example.com

- Status: Active

- Account Created: June 1, 2024

- Last Order Date: Never (No orders)

- **Risk Level: Highest** - This customer has never placed an order

2. **Diana Prince** (Customer ID: 4)

- Email: diana@example.com

- Status: Active

- Account Created: April 10, 2024
- Last Order Date: June 18, 2025
- **Risk Level: High** - Last order was over 3 months ago

3. **Bob Smith** (Customer ID: 2)

- Email: bob@example.com
- Status: Active
- Account Created: February 20, 2024
- Last Order Date: November 5, 2025
- **Risk Level: Medium** - Last order was within the 6-month window but may need engagement

Summary:

- There are 3 active customers with no recent ordering activity
- 1 customer (Fiona Gallagher) has never placed an order despite having an active account
- 2 customers have not ordered within the last 6 months
- These customers may benefit from re-engagement campaigns or special offers

The visualization has been created to help identify these at-risk customers for targeted retention efforts.
